## **MEDIA UPDATE / CALENDAR LISTING**

**WHO:** Miami Museum of Science & Planetarium

**WHAT:** "THE CELL GALLERY: Your Inner Beauty"

See the cells that make up your body in a way you'll never forget! This new and exciting exhibit analyzes the fascinating world of cell biology. It introduces visitors to the concepts of the cell, the roles of different cells in health and disease, and the function of cells in sensing and reacting to the world around us.

In developing The Cell Gallery: Your Inner Beauty, the museum partnered with more than 20 researchers from the Miller School of Medicine, establishing a new level of partnership with the University of Miami.

**WHEN:** Opening Saturday, December 16, 2006

**WHERE:** Miami Museum of Science & Planetarium  
3280 South Miami Avenue  
Miami, FL 33129  
Public phone: 305-646-4200

**ENTRY:** Admission to "THE CELL GALLERY: Your Inner Beauty" is free. Also at the museum is the Science of Aliens exhibit. This interactive exhibit explores the "real" science behind the search for alien life. Through four distinct zones that include thought provoking interpretations, colorful interactivity and pop culture attributes, this exhibit will guide visitors into what life might be like "out there."

**PHOTO OPP:** Private reception for media only, December 15, 2006 from 4:30PM to 6:00PM. Please RSVP to Annia Lara at (305) 646-4238.

**MUSEUM INFO:** Founded in 1949, the Miami Museum of Science & Planetarium is accredited by the American Association of Museums and is an affiliate of the Smithsonian Institution. Explore the exciting and intellectually stimulating exhibits, Planetarium and Weintraub Observatory, Wildlife Center and Falcon Batchelor Bird of Prey Center, theater shows, and much more. For more information about The Cell Gallery exhibit, the Science of Aliens exhibit or the Miami Museum of Science & Planetarium, visit [www.miasci.org](http://www.miasci.org).
